Welcome Competitors!

This year's *Space Coast Challenge* continues Port Malabar's long-established tradition of testing the shooter's ability to maneuver, accurately shoot and think. This Tier 4 match will test each individual's ability to successfully negotiate the various challenges of each stage.

This match could not be possible without our fantastic and very generous sponsors. Please take the time to visit them here at the match or on their websites to not only thank them, but to consider them in your purchase of that next "Got to Have" piece of equipment that will take you to the next level. Hands down, they are the best our sport has to offer.

Our goal of the *Space Coast Challenge* is to supply you with a **SAFE** and **FUN** shooting environment. To this end, our staff is here to assist you in any way we can. We have top-notch CSO's, SO's and volunteers to assist you throughout your match.

Please remember, while we are here to serve your needs, this is an **ALL VOLUNTEER** team and without them, our match would not exist.

Our team of volunteer CSO's and SO's are here to ensure **EVERYONE'S** safety. They will not hesitate to make the right and fair call if a safety violation occurs. That choice is ultimately up to you, the shooter.

SAFETY – SAFETY – SAFETY! Throughout the stages, you will have to make tactical decisions with a loaded gun that may put you and others in a precarious situation if you make the wrong choice. Safety should be first and foremost on your mind at **ALL TIMES**.

Hundreds of hours have been spent in the planning and execution of this year's match. Enjoy the shooting experience, the camaraderie, and most of all **BE SAFE!** in all of your actions.

On behalf of all of the members of PMRPC and the staff of the *Space Coast Challenge* by Ruger, WELCOME!

Good luck, have fun, shoot straight and **SAY SAFE!**

Glenn Oberbeck

Match Director 2024 *Space Coast Challenge* by RUGER

Space Coast Challenge Shooters:

Rulebook: The Space Coast Challenge will be run using the current 2024 rulebook (amended 12/14/23)

Registration Check In. All registered shooters need to check in upon arrival. Since you are scheduled to start shooting Saturday you will have a chance to check in either on Friday 3-5 pm or prior to going to your first stage on Saturday. Registration will start at 6:30 am. Saturday, shooting will start at 7:45am with a walk through of First Shots.

Hold Harmless Waiver: All visitors will be required to complete a Hold Harmless Waiver. This form will be required at registration. Please print and fill out the Hold harmless waiver attached to this email. To speed up the registration process, please bring the completed form with you. The document is available on at <http://practiscore.com/> and at <http://spacecoastchallenge.com/>

Gate Security Pass: Please print and fill out the Gate Security Pass attached to this email. This will speed up your access through the gate. A Security Pass is only required for each vehicle, not each shooter. The document is available on at <http://practiscore.com/> and at <http://spacecoastchallenge.com/>

PMRPC is a COLD RANGE. If you arrive at the range hot, please advise registration personnel and they will assign a Safety Officer to accompany you to a bay and unload your firearm. Bring a bag to transport your carry gun to your vehicle. There is no firearm handling in your vehicle.

Shooter Brief: We are asking that all shooters be registered, gear on, and at their assigned stage 30 minutes prior to published start time. This will permit the Safety Officers to start the safety briefing and stage walk-through prior to first shots.

First Shot: We need all shooters on the line at the published start time. Shooters will line up for the basic equipment check where concealment garment, equipment position, and holster offset will be confirmed to adhere to IDPA rules.

Scoring is done electronically using Practiscore. There will be no paper score sheets at the stages. You will be required to approve the entered data on the tablet following your COF. Scores will be posted to Practiscore periodically for review throughout the match. Questions regarding scores should be emailed to: RegisterSpaceCoastChallenge@gmail.com. Be sure to include your squad number. Shooters may photograph their score page, IF doing so does not delay the squad.

Immediately after the "Unload and Show Clear", the shooter should follow the SSO as targets are scored. It is the shooter's responsibility to accompany the SSO during the scoring process. In accordance with rule 4.15.2.4, if a target is scored and taped before the shooter or designee can see the target, the score stands. Any disagreements with the scoring must be addressed with the CSO at this time. A score can be contested immediately to the MD, but it is highly unlikely that the CSO will be overruled. It is the shooter's responsibility to ensure the score is correct before accepting the page.

Walkthroughs (per Rule 3.3.2) The Group Walkthrough DOES NOT begin until the CSO states you have 3 minutes for a walkthrough. Other than the group walkthrough, no individual stage walkthroughs are permitted. Individual walkthroughs include walking the path of fire or assuming shooting positions to check cover positions or target engagement, order, etc. A PE will be issued if you violate this rule. To keep the match flowing, some stage walkthroughs will be altered as to when a position can be taken. As an example, the stage starts with the shooter in a vehicle. Instead of everybody getting into the vehicle during the walkthrough, we will allow the shooter to get into the car while the targets are being scored for the previous shooter. **Any individual activating a moving target during walkthrough or while pasting will receive a PE for performing an Individual walkthrough.**

Equipment Check / Chrono is required for ALL Shooters, or no score will be issued.

Pay attention to the SO Instructions at the beginning of each stage! These are the OFFICIAL INSTRUCTIONS and all penalties will be assessed based on these instructions.

Prize Table: Prizes will be selected by random drawing. High value prizes will be distributed at the Awards Ceremony Sunday. **FRIDAY AND SATURDAY-ONLY SHOOTERS** may claim any prize they may have won **AFTER LAST SHOT** each day in the Registration Building.

Awards- If you are not present at the Awards Ceremony, you must designate someone to pick up your award. Friday and Saturday-only shooters may have awards mailed.

LUNCH Saturday: Saturday lunch will be provided by Sagi and Kiquo's. They will be located near the flag in the Sponsors Area. To keep the match on time, there is not a scheduled break for lunch. When you are ready, find a break in your schedule and go get a lunch and bring back to your bay. **Special Burgers and Dogs will be served.**

[illegible]

Our 2024 Staff

Without the huge staff of volunteers, prior, during and after—
no match of this size could ever happen.

Be sure to thank the safety staff, those repairing and keeping things running, and the
administration who donate their time and creative skills to further the sport.

Match Director- Glen Oberbeck
Match Director- Duane Charter
Asst Match Director- Jim Flynn
Asst Match Director- Paul Zima

HUNTERS® GOLD

They **CHANGE** so you don't have to.™

Trivex® lenses allows more light to pass through the lens than polycarbonate lenses.

Identify your target faster and with more accuracy. Get more contrast in low light.

Light knowledgeable lenses give you the best advantage in any shooting situation.

OUR GOAL IS SIMPLE: TO OFFER THE BEST HUNTING & SHOOTING ADVANTAGE AVAILABLE ON THE MARKET.

Since we opened over 45 years ago, we have produced the best possible lenses for optometrist and ophthalmologist around the United States. We are proud to have a solution for competitive shooters, hunters and outdoorsmen that want to have the best vision possible indoors and outdoors.

Hunters HD Gold® protective safety glasses were manufactured and have been tested for impact and passed to meet the ANSI Z87.1+ - 2020 High Impact requirements. The lenses are made from impact resistant Trivex® material.
